

Photovoltaic panel installation scam revealed

Are solar panels a scam?

Here's how to steer clear of the scams: Do some research. Avoid solar companies that say a government program will cover the whole cost of solar panels -- or say they're from (or affiliated with) the government. These are lies. If you're looking at solar energy for your home, get quotes from reputable providers with a valid license.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

Are solar companies a bait and switch scam?

This is essentially a classic bait and switch scam. A solar company uses the premise of getting 30% off solar to get homeowners to sign a lease or PPA, and then collects it for themselves. In extreme cases, solar scammers may even pose as utility or government officials trying to promote a new or unique solar program in your area.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Can a government or utility official sell solar panels?

Now, any government or utility official trying to sell you solar panels should raise a red flag because governments and utilities don't sell or install solar panels. The bottom line is that there are solar incentives that can help reduce the cost of going solar.
